

THE RESIZTERS

- Protest Music "For the People, By the People"

After emceeing the Women's March in San Diego in January 2017, Melanie Peters founded The Resizers band in response to the need for quality, inspiring live music at the protests, marches, rallies and community events seen everywhere. This female-led professional music collective performed in 2017 through late 2019 in support of many marches, rallies, causes and fundraisers.

After a hiatus due to the pandemic and personnel changes, the Resizers are back as of 2023 to support our communities by representing protest music written throughout history. Our goal is to motivate & empower through live music to remind everyone of where we have been and where we are going, and to #Resizt hate, injustice, ignorance, and greed.
